The Ute Tribe's resolution on an EPA U&O FIP is attached. This was handed out at the consultation meeting Monday.

The resolution mentions in several places the Tribe's desire for an expedited permitting process for new O/G sources in a non attainment area. An issue that industry has also mentioned to the Region and OAQPS.

We may want to start thinking about how to cover new O/G sources after the Basin is most likely designated non attainment in late 2017. I'm sure we will get comments on this when we propose.

Thanks

This is what they discussed at the consultation.

Callie –FYI - this is the same as what was scanned with the attendees list and sent yesterday, I just seperated it out.

Let me know if you have any questions and great job on the call.
